# Handcrafted In The Heart of Nottingham...

A collection of authentic and timeless products, all designed and hand finished using traditional artisan skills. Our extremely experienced craftsmen paint, stain and polish each pole using techniques perfected over generations, here in our Nottingham workshop.

Stained by hand to preserve the beauty of the natural wood grain.

Specially treated to achieve a rich, aged look.

An array of traditional finial designs.

Sourced from only the finest solid wood.

Handcrafted 30mm  
**CATHEDRAL**

Traditional finishes skilfully created using specialist techniques. The colours are layered and contrasted by hand to give a rich, aged appearance.
